Metallographic grinding/polishing machine MP-1/2

▲ Metallographic grinding/polishing machine MP-1

▲ Metallographic grinding/polishing machine MP-2

This grinder polisher is single plate. It is suitable for pre grinding, grinding and polishing metallographic specimens. The machine is equipped with cooling system that can cool down the specimen during pre-grinding so as to prevent overheating and damage the metallographic structure. Featuring easy operation and reliable performance, it is an indispensable device for the factories, research institutions and college labs to prepare metallographic specimen.
